

At Spring Parks Primary School we have a strong set of core values:

Respect - we develop knowledge and promote actions that demonstrate our understanding and recognition of each person and our environment at school and in the broader community.

Engagement - we participate with enthusiasm and a sense of commitment in all opportunities for learning, in every facet of school life.

Achievement - students and staff are constant learners, continually seeking new knowledge and skills, celebrating and sharing our learning achievements with parents and the community.

Community - we embrace the diversity of the local area and welcome each family to the Spring Parks PS community, knowing that we each have something to learn from and contribute to each other.

Hope - we are a positive community of families, staff and students working in partnership to create a future that sees every individual valued in and contributing to their world.
